Treasurer's Sale of Lands for Taxes

Each year, municipal and county treasurers compile a list of properties against which taxes are outstanding for at least two successive years, which is a period sufficient to permit sale of the owner's assets to reimburse the municipality. These lists are submitted by the municipal representative to the Ministry of Government Services for publication in THE ONTARIO GAZETTE.

The Gazette is published every Saturday. Tax sale lands are included only in the issue of the first Saturday of each month. Each property is described so that it may be properly identified. Also shown are the amount of tax arrears and costs, and the date, time and place where the sale will be held, which is usually in a public building in the locality. Sales are held three months or later following the date of publication in the Gazette and are subject to a reserve bid equal to the amount of tax arrears and costs.

The previous owner may by law redeem the property any time within one year and one day after the date of tax sale by paying to the municipality all arrears plus costs levied. Where redemption occurs, the municipality reimburses the purchaser of tax sale lands for the amount paid at the sale plus an additional amount to be determined in each case.

If the land is not redeemed in the manner described above, the purchaser at sale, receives from the municipality a tax deed or certificate which should be registered in the appropriate Land Titles or Registry Office. A purchaser should ascertain from either of these offices, information relating to any of the charges or liens against the land and consider the advisability of employing the services of a solicitor to determine the extent, if any, of his liability.

The foregoing applies to tax sale lands which were privately owned. In the event the land is the property of the Crown as represented by the Province of Ontario, only the improvements on the property, such as buildings, may be sold. In this case, an intending purchaser should for his own protection ascertain from the local office of the Ministry of Natural Resources whether or not the land or any part can be purchased or leased from the Ministry. If it cannot, then the purchaser of the improvements would be required to remove them from the land.

In some cases, land advertised for sale in the Gazette may be bought by the municipality, or the owner, prior to sale, may pay the tax arrears and costs. Where this occurs, the land is removed from the tax sale lists.

CITY OF TORONTO, MUNICIPALITY OF METROPOLITAN TORONTO

To Wit:

By VIRTUE OF A WARRANT, as subjoined, issued by the Mayor of The Corporation of the City of Toronto, and bearing the date of the 18th day of October, 1974, for the collection of arrears of taxes due upon the undermentioned lands in the City, all such being patented lands, I shall on Thursday, the 20th day of February, 1975, at the hour of 11.00 o'clock in the forenoon and upon the following day or days until the sale is completed, at the City Hall, Toronto, proceed to sell the said lands by public auction for the best prices that may be offered by the bidders at the sale, together with all charges thereon, unless the same be sooner paid.

Treasurer of the Corporation
of the City of Toronto.

Treasurer's Office, Toronto, October 18th, 1974.

To W. M. Campbell, Esq.,

As Witness my hand and Seal of the Corporation of the City of Toronto this 18th day of October, 1974.

ONTARIO ENERGY BOARD

IN THE MATTER OF *The Ontario Energy Board Act*, R.S.O. 1970, Chapter 312 and in particular, Section 19 thereof; and

IN THE MATTER OF an Application by Union Gas Limited to the Ontario Energy Board for an Order or for Orders approving or fixing just and reasonable rates and other charges for the sale, distribution, transmission and storage of gas; and

IN THE MATTER OF an Application by Union Gas Limited to the Ontario Energy Board pursuant to Subsection 8 of Section 15 of the said Act for an Interim Order or Orders approving or fixing just and reasonable rates and other charges for the sale, distribution, transmission and storage of gas, pending the final disposition of the Application referred to in the paragraph above.

NOTICE OF APPLICATION

NOTICE IS HEREBY GIVEN, pursuant to the directions of the Ontario Energy Board ("the Board") of an Application to the Board dated the 4th day of November, 1974 ("the said Application") by Union Gas Limited ("Union") for an Order pursuant to Section 19 of *The Ontario Energy Board Act*, R.S.O. 1970, Chapter 312 ("the said Act"), after a hearing, approving or fixing just and reasonable rates and other charges for the sale, distribution, transmission and storage of gas by Union.

In the said Application Union advises

(a) that at the hearing of the said Application it will present to the Board for approval new rates and charges designed to recover the substantial revenue deficiency which has been established by the Board as a result of the first stage of Union's rate hearing, together with further additional gas cost increases which have arisen since the hearing of the first stage of Union's rate application and have now been approved by Decision of other regulatory authorities in the amounts of 2.5 cents per Mcf and a further 24.2 cents per Mcf payable to TransCanada PipeLines Limited as of September 1 and November 1, 1974 respectively, and of 8.51 cents per Mcf payable to Panhandle Eastern Pipeline Company as of December 1, 1974; to recover this revenue deficiency and these further gas cost increases Union will have to attain an overall increase in utility revenues of approximately 40%, the bulk of which is applicable to these new gas cost increases,

(b) that the exact new rates and charges have not yet been finally determined but will be applied so as to charge the same rates

and charges to the same class of ultimate consumer throughout Union's franchise area as a result of which it is presently estimated that the increase to the average residential customer using 140 Mcf per annum will range between 20% and 45%, depending on the location of the customer; Union proposes to file with the Board its cost allocation study and its proposed new schedules of rates and charges on or before the 22nd day of November, 1974 and its supporting schedules and pre-filed evidence on or before the 29th day of November, 1974,

(c) that in the new rates and charges it will propose, it will give recognition to certain lower cost storage gas in inventory at the date of the said Application by reflecting this in the timing of the implementation of the proposed new rates and charges for its ultimate consumers and wholesale customers,

(d) that at the hearing of the said Application it will adduce evidence such as cost allocation, rate data and rate design to show that the new rates and charges it proposes are just and reasonable, and,

(e) that because of its existing substantial utility revenue deficiency as found by the Board in its Reasons for Decision dated the 9th day of October, 1974 and the substantial additional increases in its cost of gas purchased from TransCanada and Panhandle as above set forth, it urgently requires the increases in revenue which will be generated from its proposed new rates and charges and accordingly Union requests the Board to make an Order after the hearing of the said Application, approving or fixing such new rates and charges so that they may come into effect with respect to meter readings or estimates on or after January 1, 1975.

In the said Application Union also applies to the Board under Subsection 8 of Section 15 of the Act for an Interim Order in the event that the said Application cannot be finally disposed of within the timing above set forth, such Interim Order to authorize Union to place its new rates and charges into effect with respect to all meter readings or estimates made on and after January 1, 1975, pending the final disposition of the said Application and of the Main Application and subject to whatever terms and conditions the Board might prescribe in such Interim Order.

The said Application is available for inspection at the Offices of the Board and of the Applicant's Solicitors.

By direction of the Board, the persons affected by the Application who are not served personally or by registered mail are served by publication of this Notice.

The Board's Rules of Procedure require that a Respondent who intends to oppose or otherwise intervene in an Application shall file with the Board an Answer to the Application and serve a copy thereof upon the Applicant or his Solicitor, where a Solicitor is named in the Application. Where filing or service of the Answer is personal, it shall be effected within 14 days after the day of service of Notice of the Application. Where it is by registered mail, the date of mailing shall be within 14 days of service of Notice of the Application.

The address of the Board is 14 Carlton Street, Toronto, Ontario, and the address of the Applicant's Solicitors is as set out below.

Dated this 4th day of November, 1974.

NOTICE TO APPLICANT REGARDING REPLACEMENT OF LIFE INSURANCE

- 1. Pursuant to the requirements of *The Insurance Act* and the regulations, this notice and comparison statement are provided for your information and protection since you are considering changing your existing life insurance. This change may involve the use of the proceeds available to you under your existing life insurance to buy another form of life insurance. The proceeds of your existing life insurance may be made available by surrender, lapse, reduction in amount or substantial borrowing of the loan values of your existing life insurance.
- 2. In making your decision you may wish to consider whether it is to your benefit to drop or change existing life insurance to reduced, paid-up, or extended term insurance, in favour of new life insurance issued by the same or a different insurance company. Some of the reasons it may not be to your benefit are:
 - a. Since the sales costs of life insurance policies are charged in the earlier policy years, the replacement of an old policy by a new one may result in your paying these costs twice.
 - b. The amount of the premium for an existing policy may be less than that for a new policy having the same or similar benefits. Any replacement of the same type of policy will normally be at a higher premium rate based upon your present age.
 - c. The incontestable and suicide clauses in life insurance policies begin anew in a new policy. This could result in a claim which would be denied under a new policy but which would have been paid under the policy which was replaced.
 - d. If your insurability has changed adversely, a new contract may be more costly and contain restrictions. Your existing contract should not be altered or terminated until your present degree of insurability is ascertained.
 - e. You may find that the interest rate on policy loans and other policy conditions or benefits are more favourable under your existing insurance.

Please consider these reasons when you examine the attached Comparison Statement.

- 3. For your protection you may wish to receive comments or quotations from your present or another life insurance company before arriving at a decision.

Junior Hassell Atkins, Esq., 24276
R.R. #2,
Port Burwell, Ontario.

NOTICE OF MOTION TO REOPEN

TAKE NOTICE that an application will be made before the Ontario Highway Transport Board for the reopening of the Application of Junior Hassell Atkins for a Public Vehicle licence at the Chambers of the Board, 151 Bloor Street West, Toronto, Ontario, at such time as the Board may determine said Motion to be based on the following grounds, that is to say:

- (a) that the learned Vice-Chairman of the Board acknowledges that there is a need for the type of service the Applicant is prepared to provide;
- (b) that the learned Vice-Chairman ought not to have considered that a similar type of service may be provided by the taxi industry;
- (c) that the operation on the basis of Taxi Licenses obtained by the various Municipalities in the

proposed service area would be an undue hardship on the Applicant as the requirements of the various Municipalities in the area to be served may be at variance;

- (d) that on the basis of the operation as proposed by the Applicant all charter trips originate within the area proposed to be served, as the basis for the fare to be on an hourly basis from the time the limousine left its storage depot until such time as it returns;
- (e) that it is unreasonable for the Applicant to incur the expense necessary to provide the service without benefit of a Public Vehicle Licence;
- (f) that the citizens of the proposed service area are entitled to the same services as provided in Metropolitan Urban areas;
- (g) that in view of the type of service proposed to be offered it seems an unreasonable request to operate on a sham schedule from Point 'A' to Point 'B';
- (h) that the cases referred to by the learned Vice-Chairman really have no relevance to the type of service proposed to be offered in that in any event licensing would be required by all the Municipalities proposed to be served;
- (i) the type of service provided by the Applicant will service the requirements of all the witnesses who gave evidence in support of the Application as the fare as indicated would commence from the time the vehicle left the storage area and the hourly rate would be charged notwithstanding that the limousine might be directed to, for example, the City of Toronto;
- (j) and such further grounds as counsel may advise.

The Board has fixed Tuesday, the 7th day of January, 1975, at its Chambers, Britannica House, 151 Bloor Street West, 10th Floor, Toronto, Ontario, at 10 a.m. (E.S.T.).
